Congratulations and best wishes to pilot Dick Orr on his 95rd birthday today, May 1, 2016.

Daryle Holte

I remember one nite on duty in Isn we had a cv580 flt that overnited arrived Abt midnight

Dick was the captain I was giving the wx and it was a full fledged snow storm the visibility was 1 mile ceiling 500 ft and getting worse

Capt Orr had made 2 passes with out seeing the run way lites he asks if I was still showing 1 mile and 500 ft

I hesitated because it was not nice out there as Dick orr was the chief pilot at that time

I think he understood that it mite have been below min but I still showed it was at the minimum

he made a couple more passes and down he came when he came in the terminal he kind of gave me a grin and thumbs up /

Frontier had the best flt crews that ever existed as well as the rest of the employees Happy birthday Captain Orr from an old ISN agent

Captain John Winter, Denver Flt. Ops.

Happy Birthday Dick, I wish I had a story as good as Daryle's to tell, but I can thank you for making Frontier the most important part of my career.

You made Flight Ops. A great place to work, if you can call working for you work, you made it a pleasure.

Thanks Captain Orr, have a Happy Birth Day and many, many more!
