

FRONTIER NEWS

A newsletter for the employees, families and friends of the first Frontier Airlines.

Bob Ashby was the only WWII Tuskegee Airman to become a pilot for a U.S. scheduled passenger airline. He flew with Frontier Airlines from January 29, 1973 until he retired in June, 1986 as captain of a Boeing 737. He began his FL career the same day as Emily Howell Warner - she was the first woman pilot with a U.S. commercial airline since Helen Ritchey in 1934. *(continued on page 12)*

The **FRONTIER NEWS** is published quarterly and dedicated to ex-employees, friends, family and fans of the "old" Frontier Airlines which "died" on August 24, 1986 and was "buried" on May 31, 1990. It is a non-profit operation. All income goes into keeping the NEWS going. Opinions expressed in this newsletter are those of the author and not the editor or the publication. Publishing dates are October for Fall, January for Winter, April for Spring and July for Summer.

Articles and photos are welcomed and subject to editing and space requirements. We cannot pay for such items but will give credit as appropriate. All submissions should deal with the "old" Frontier Airlines. Especially welcomed are stories of personal experiences with a humorous slant. All airline employees have a treasure trove of such stories. Please share them with the rest of the FLamily. We also want to publicize ALL "old" Frontier gatherings. Be sure to notify us with details: place, date, contact and so forth. They will be published in the "Timetable".

Subscriptions are \$10 per year. All back issues are available & cost \$2.50 each. First 24 issues on a CD \$5. Text ads are \$5 for 20 words, \$10 for 40 words, \$15 for a business card, \$20 for 1/8th page and \$40 for a quarter page, \$100 for a full page. Tell others in the FLamily about the newsletter. Give a gift subscription. Mail checks to Jake Lamkins, FL NEWS, 1202 Scrimshaw Cove #4, Fayetteville, AR 72701. Thanks for your support.

The 2000 - 2004 newsletter back issues are now posted at the FL website. More will be added as time allows.

History normally takes years to get a proper perspective of the events it reports. Witness the continuing stream of books on WWII, the Korean War, Vietnam and JFK's assassination, to name a few.

The same thing is happening to aviation history about deregulation and the subsequent turmoil in the industry. I hope to run some book reviews of books on this subject as I discover them. I have several already that I plan to use. Tell me about any you run across. See this issue's review of Stan Solomon's book on page 26 which is an excellent look at the local service carriers.

Tex Searle's first hand account of his flying days at FL is about to be re-published. You can pre-order the new edition or buy used copies of the older edition at <http://www.amazon.com>.

The editor working on Tex' new edition contacted me about photographs for the book. She sent a copy of a photograph she wanted to use which included a PX aircraft. I dissuaded her from using that one.

Deaths in the FLamily are sad affairs and are the one thing about the newsletter I don't like. This past month has seen a surge in FLfriends passing away. However, I think it very important we keep up with them so we can honor our past, remember our comrades and cherish the memories we made together.

Please let me know of any FL gatherings you know about. We lack info on many reunions for 2009.

REUNIONS NEWS

The PHX Reunion was a success and the weather was perfect. We had an attendance of 72 and everyone enjoyed catching up with friends and fellow workers. It was wonderful to see many I haven't seen since Frontier went South in 1986. The picnic was great and the food was delicious. We had two cakes decorated with Frontier Airlines 2008 on top of each. They were all gone by the time the party was over. We served barbeque from Haps in Phoenix. We had pulled pork, brisket, sides of beans, potato salad and cole slaw. Everyone was pleased and commented what a wonderful buffet. I think everyone had a great time and we will repeat in 2 years on November 7, 2010.

Attending were Larry Baker, Ken Banman, Jim Appelby, Bob Ashby, Greg and Jackie Davis, Norm and Nettie Coldwell, Vern Crawley, Gary and Sandy Faulstich, Patti Givens, Linda Hamala, Arnold Hadler, Pat (Williams) Harter and Stan Harter, Dave Ross, Jim Seamster, George Sims, Charlie Southerland, Gary Stevens, Scott and Carol Hein, Don Hockenbury, Brad and Denise Hurd, R. J. Hook, Al and Carol Hedgepeth, John and Dorothy Koehler, Richard Paul, Joy Potter (Trudeau) and husband Steve, Dan Price, Murry and Dick Price, C. Ray and Donna Johnston, JoAnn Makedonsky, Frank and Suzanne Meyer, Walt Hatfield, Billy Walker, Jess and Carole Wright, Albert and Ruby Wells, Betty and Dale Flowers, Cal Eiker, George and Millie Bilotta, Frank Smith Jr., George and Rochelle Vega, Shirley Gannis, Sharon Price, Bob Kelsch, Phil Huebner, Cyndy Camomile and Ginger Treptow.

GONE WEST

*We salute these FLrinds on their final voyage.
They are not dead until we forget them.*

More information at <http://FAL-1.tripod.com>

Some years back I was doing some research in the archive book section of Brigham Young University. In reading about the old airmail pilots who flew the transcontinental mail between the years of 1918 and 1927, I came across an article explaining the term "Gone West." As the old airmail route continued its expansion from the east coast to the west, thirty-two pilots and nine mechanics lost their lives in the line of duty. Three hundred wrecked aircraft were strewn from the Allegheny Mountains known as "The Hell Stretch," across the open plains to the Rockies, the Wasatch, the Sierras into the west coast. When a pilot was over due, the term "Gone West" came into being. -Tex Searle, FL pilot

My wife, Diane Lewis Moore worked for Frontier from 1974 to 1987, and then with Continental after the Frontier acquisition until 2003. We met at Frontier, where I also worked from 1975 to 1982. Diane worked in Material Control, Spares Support, and Purchasing for Frontier, and was well-respected and well-liked. She developed many long-term, successful supplier relationships along the way that the company benefitted from. She prospered at Frontier, and always felt fondly about the "FLamily".

When I look at the list of Frontier employees that have gone before us, I think that it would be fitting to include her. She passed away in January of 2004, after fighting Leukemia for six months.

The FL website brings back many fond memories, and I appreciate the efforts put forth to maintain the information.

A graduate of Arizona State University, O'Connor served as a lieutenant naval aviator during the war, and brought a diverse business and publishing background to the Daily News.

Prior to joining the Navy in 1942, O'Connor founded Arizona Airways that later merged with Monarch Air to become Frontier Airlines.

KING HERRINGTON 1958 - 1985, AIRCRAFT MECHANIC, LEAD MECHANIC, DEN

I received a call yesterday from King's wife Polly, that King died Saturday, October 4, 2008. His obituary will be in the Denver newspapers on Tuesday October 7, 2008. Services will be held at 10:00 on Wednesday, October 8, 2008 at the Aurora First Assembly of God Church, 11001 E. Alameda Ave., Aurora, CO.

King Herrington started to work for Frontier August 11, 1958, in Denver in the Sheet Metal and Welding Shop (IAM Seniority Lists) and transferred to the Instrument Shop in 1964. He was a lead Mechanic in the Instrument Shop March 3, 1968. King retired on January 22, 1985.

-Ken Schultz, Wheat Ridge CO

OBITUARY: King W. Herrington, 87, was born April 29, 1921 to Bessie (King) and Charles Leonard Herrington on a farm near Thurman, Colorado. Herrington passed away on October 4, 2008.

Growing up with his younger brother, Samuel, both attended first grade in a one room school known as Cactus Hill. For high school, a room was rented in Akron batching the four school years, graduating from Akron High School with the class of 1939.

King scouted around and found many arrowheads, also collecting rattle snake rattles, even being bitten by one on the hand behind him, while trying to kill one with a tin can.

During the summer and after graduating from school, he worked in Kansas for a cousin. He later took a sheet metal class in Denver. After completing the course, he went to California with a high school classmate, Eugene Gasser finding work at Vultee Aircraft.

After a call from Uncle Sam, he enlisted in the Navy, serving time in Kodiak, Alaska and then the Naval Air Station at Seattle (Sandpoint), Washington. During this stay, he was joined by his brother Samuel, (also in the Navy). After some time, Samuel was transferred to the Bremerton Ammunition Depot, but every seven weeks, they had a weekend together.

Serving over four years, King returned to the home farm. Because of the drought during the 1930's, he was not too interested in farming. After 30 years on the farm, his parents decided to sell and retire. After having a farm sale in November, 1947, the family moved to Denver.

After working for Mountain States Bean Company a short time, he had the opportunity to get back in aviation work, working for Stanley Aviation until their closing and then going to Vest Aircraft at Sky Ranch Airport. He later worked for and retired from Frontier Airlines.

On November 22, 1950, King married Willa Mae (Polly) Fickel, from Ottumwa, Iowa. To this union, four children were born.

Being from the farm and knowing about barb wire, he started collecting it about 1971. A friend also started collecting wire fencing tools at that time. They worked together for the past 37 years. They went to many shows around the country. King came home with many first place trophies.

There are about 3500 patents of barb wire, but many were never found or manufactured. His collection consisted of about 1000 pieces with many very rare pieces. He had taken several classes

in welding and could weld small pieces together to make an official piece. He also made several non-official pieces and never represented them as official. He was inducted into the "Barb Wire Hall of Fame".

While looking for barb wire, he started collecting adjustable wrenches, having many unbelievable varieties of sizes, shapes and forms.

King was a member of Aurora Assembly of God Church, where services were held. Burial was in Chappel Hills Cemetery. Surviving him are his loving wife of 58 years, his four children; Terry Herrington of Aurora, Debbie and Greg Surrat of Mt. Pleasant, South Carolina, Kristi and Jeff Hunter of Aurora and Nancy and Greg Gudeman of Columbia, Illinois. Also surviving are his brother Samuel and Helen of Lakewood and one sister, Betty Mitchell and friend Wayne Ralston of Boulder, Colorado.

J.L. OLSEN 1959 - 1986, STATION AGENT SAF PHX WYS BOI

I got a call yesterday advising me of the passing of J.L. Olsen in BOI. J.L. was a long time employee of Frontier. I know he worked in PHX, WYS and was one of the opening agents when we opened BOI in June of 1979, and worked there until the end. I feel blessed to have known him both as an Employee and a good friend. J.L. was always one you could depend upon to get the job done. I have many happy memories of doing things with him, both at work and away from work.

The original BOI gang that opened the station is getting smaller, having already lost Duane Sharp, Ron Slater, Dave Weston, Bob Smith and Moe Osborne, that I know of. Time has not been kind to us. I can only say that now J.L. has gone to a better place.

LARRY VIED
1966 - 198?, PILOT, REGIONAL
DIRECTOR OF FLIGHT OPERATIONS,

Only now have I heard and have confirmation of the Gone West of; Capt. Larry Vied 6-4-08. I have no other information at this time. Regretfully,

LAWRENCE M VIED, Born 25 Dec 1926, Died 04 Jun 2008, Age 81, At 85086 (Phoenix, AZ), SSN issued in Missouri **-SSDI**

I had a nice visit with Joannie this morning. Apparently, Larry went in for what should have been a minor operation albeit he'd had a small cancer in one of his lungs. It had shrunk from chemo and radiation, so they thought "no problem."

Unfortunately, he developed a staph infection and was winning that battle when it turned south on him. Joannie apologized for not making contact with any of the Frontier folks. She's been understandably upset and torn by this ordeal and just didn't get to it. I explained that it was me who should have apologized for not having kept closer to the situation. She seemed to be doing better and sounded just like she always did. Larry had been working at the Anthem, AZ library before all this.

VIC HERBERT

FOUNDER & PRESIDENT, AIR LINE
EMPLOYEES ASSOCIATION, MDW

(Normally a non-FL person would not be included here but Vic played a major role for nearly half FL's employees (those ALEA represented) for about 30 years.)

I just had a nice conversation with Venita Herbert. Vic passed away in July 2008 after 3 mini strokes. The last one took him. She said that all the ALEA articles, pictures, airplane models etc. were donated to various libraries. They were married 10 years and Venita worked for Vic for "45 years". He was just 3 weeks away from his 91st birthday. He was truly a gentleman and he was interested in the welfare of the Airline Employees. I personally learned alot from Vic. He was honest and his word was as good as gold. The Airline Industry would be in better shape if there had been a dozen or more Vic Herbert's in the world.

-Kerry Allen, kerryntree@yahoo.com

(Kerry was FL ALEA Master Chairman in Mar 1957 when the first contract was being negotiated.)

OBITUARY: Victor J. Herbert, age 90, of Orland Park, formerly of Western Springs. US Navy veteran/WWII. Beloved husband of Venita, nee Hurr, and the late Dorothy; loving father of Victor (Carol) Herbert, Jr. and Connie (Bob) Santaniello; step-father of Gary (Kim) Foster; devoted grandfather of eight; and great-grandfather of two. Mr. Herbert was President and Founder of the Airline Employees Association in Chicago. Interment will be private. Memorial service 11 a.m. Friday at the

Presbyterian Church of Western Springs, 5250 Wolf Rd., Western Springs. In lieu of flowers, memorials to the American Cancer Society or the National Multiple Sclerosis Society appreciated.

-Chicago Tribune on 7/16/2008

(Vic was an ALPA staff member in the late 1940s and was put in charge of developing subsidiary unions of non-pilot aviation crafts. Among them was one for stewardesses and station agents. The first evolved into present day AFA and the other became the ALEA which represented clerical, reservation, station and provisioning FLOs from 1957 to 1986. Vic was the only president ALEA ever had until it was dissolved in 2003.)

DELL JOHNSON

1963 - 198?, STATION AGENT, RAP

OBITUARY: Dell D. Johnson, 67, Rapid City, passed away unexpectedly Wednesday, Nov. 26, 2008, at his home. He was born April 17, 1941, in Mitchell, to Nello and Eloise Johnson. He graduated from Rapid City Central High School in 1959.

He was proud to be one of the founding members of the Counts of the Cobblestone Car Club. Dell worked for Frontier Airlines for over 20 years while also working as a carpenter and cabinetmaker before becoming a full-time general contractor and painter. His favorite pastimes included woodworking, listening to music, classic car shows, collecting coins and model cars and bragging about his children and grandchildren.

He had a natural curiosity about how things worked and enjoyed solving problems and fixing things. He saw the potential in everything and in everyone. He gave freely and generously even when he had very little to offer. He was always willing to help out in any way he could and would drop everything if he was needed.

Survivors include his children and grandchildren: Todd (Tanya) Johnson and daughter, Bryce of Idaho Falls, ID; Scott (Jamie) Rawie and son, Logan of Phoenix, AZ; Jessica (Jason) Fenner and sons, Wyatt and Jake of Rapid City; his brother, Kenneth (Rosa) Johnson of St. Augustine, FL; his sister, Shirley (Alan) Carlin of Wheat Ridge, CO.

MARILYN KOUNTZ HERMANN 1967 - 1986, RESERVATION AGENT DEN

Marilyn Kountz-Hermann, a reservation agent in Denver, passed away on Thanksgiving day in Denver. She had pancreatic cancer. I am trying to get additional details.

-Carolyn Boller, ckboller@comcast.net

I used to work in Denver at the old Frontier, and for the past almost 2 years I was in contact with Marilyn Kountz. We had always been good friends since I started at FL but lost contact after bankruptcy. About a year and a half ago, we reestablished contact, as she had moved from California back to Denver after her husband, Bob Hermann suddenly died. (heart).

I spoke with her about every week or so and she kept me up on her health and life as best she could. Some days were good, and some days were challenging.....but NEVER was she down. She always looked at the bright side, did the best she could and really kept on living until probably close to the end.

Her highlight was last August when the whole family had a big reunion up in western Montana. In the last couple of months she had her weak days more than her strong days, but we managed a few words on the phone.

Then one day I called, and the home number had been discon-

nected with no forward.

I called her cell phone and her message had been removed and replaced, so I did leave a message but it was never returned. I knew something was going on, but had no other contact with her children.....so I just waited until this morning. Thanks for letting us know.

I am sorry I have no further information other than she was quite courageous and really meant a lot as a friend. We worked those graveyard shifts together and had some pretty good talks.

I know she is at peace.

-Fort Worth Star-Telegram on 12/21/2008

From one of the ole FL ramp rats: I met Jim in STL then transferred to DAL/DFW. Always was a Jim fan. Jim will light the WEST for the rest of us.

-Bill Kirkley (Euless, TX)

I have fond memories of Jim, especially on the golf course. What a sense of humor. Gave me my IOE in 1959. DFW-DEN and return. A great person and pilot. My condolences to Mary and family.

-Gene McCaleb (Montgomery, TX)

I was so sorry to learn of Jim's flight west. He was a fine person and probably the best pilot I've ever flown with and I've flown with some really good ones. He seemed to always have a smile and a good, happy word for everyone, a trait that probably helped him through his last days. My condolences to Mary and his family. You've truly lost a fine, fine person.

-Frosty' Frost (Camdenton, MO)

Jim was the kindest and most pleasant person to be around while flying and then later at the DAL/DFW reunions. I remember walking down the steps at the restaurant about 2-3 reunions ago with he and Mary. He was slow in navigating the stairs, but he was smiling, laughing, and telling us a funny story as we all walked out. What a wonderful man!

-Donna Harrison (Ewa Beach, HI)

What a loss. Truly one of the finest persons I have had the privilege to know. Thinking back over the 42 years that I have known Jim, I cannot recall him ever without a smile, a pleasant greeting or an uplifting word. He never had anything negative to say about anybody. Truly a gentleman in every sense of the word. He was a pleasure to fly with and was a gifted teacher. I feel truly blessed to have known Jim. I mourn his passing.

-Ron Gallop (Kansas City, MO)

My nickname for Jim was "My Hero": The most impressive example of a professional pilot I have known. He had a very special respect for our profession and cherished it as an example for others to come.

-Bill Blackmon (Oklahoma City, OK)

(Jim's FL/ALPA pilot seniority date was 10/19/49 and he was #3 on the 9/1/81 seniority list. He retired in mid 1983 when he turned 60 years old. You can tell how special someone is by the number of FLolks who take the time to note their passing. In Jim's case, an enormous amount of people commented on his passing.)

Bob was just above Emily on The FL/ALPA seniority list due to the tiebreaker of age: older over younger. David Harris is credited with being the first black pilot for a major commercial airline. He flew for AA 1964-1994. William Norwood was UA's first black pilot who also flew for 30 years starting in 1966. Perry Young, another Tuskegee Airman, is recognized as the first U.S. black pilot for a scheduled commercial airline. He started with New York Airways as a helicopter pilot on Feb. 5, 1957 and flew 23 years for them. Another Tuskegee Airman, August Martin, started flying in 1955 for Seaboard & Western Airlines, a non-scheduled cargo carrier.

MY LIFE by Bob Ashby

World War II started while I was in high school. This brought on immediate concerns as to my future. America began the process of mobilization for the war. Where was I to fit into this? Even though a large part of the United States was no longer segregated, the armed forces were. I did not see myself serving as a truck driver, a cook or a mess attendant in a Navy officers club.

I was delivering the black newspapers to the black community as a means of earning money. These newspapers covered information that was of concern to black communities that was not reported in the mainstream newspapers. I read articles about the need for blacks to be included throughout the armed forces. An effort by responsible black leaders was made to secure an equal representation of blacks into all branches of the military. This was a continuous battle because of the strong opposition by many whites that espoused the idea that blacks were incapable of grasping anything but the most menial of tasks.

After a long struggle, certain concessions were made, one being the establishment of an experimental program to see if blacks were capable of learning to fly. This was something I was looking to, so I immediately started gathering information about the program. I was not yet 18 years old, therefore not about to be drafted, so I had time to plan how I could enter this program.

Gathering all the information that I could about the requirements for acceptance into this program, I started studying things about the theory of flight, weather, etc. Lucky for me, a class in aviation was started at my high school, and I immediately enrolled. The next thing I did was to enlist in the Air Corp Reserve to insure that I would not be drafted into the Army or Navy. Now all I had to do was to continue my studies and wait to be called to active duty after I turned eighteen.

I received orders to report to Fort Dix in New Jersey in July of 1944 to begin processing for active duty. Upon completion of processing I was assigned to Keesler Field Air Base in Missouri for basic training. Upon completion of basic training, the testing for acceptance as an aviation cadet began.

I knew it would require my passing the tests and physical to enter the cadet program. I had no idea just how extensive the testing was. However, after three days of testing I was informed that I had passed and was now an Aviation Cadet. As soon as a vacancy opened up at Tuskegee Army Air Field in Alabama, I would be transferred there to begin flight training. I was thrilled and proud to be one of the few selected for the program.

After transferring to Tuskegee Army Air Field (TAAF) to begin the cadet training, it hit me about what I was trying to achieve. I had never been near an airplane, didn't even know how to drive a car, in fact, only ridden in a car a few times. My usual means of transportation were bicycles, buses and subways.

I always had the feeling that if someone else had accomplished something, I knew that I could also. So with this determination I set out to accomplish my goal of becoming a pilot.

We, the cadets, knew that this program was on an experimental basis, and it was constantly under attack by the War Department and Military who wanted to cancel the program. Because of the stringent selection requirements, the men chosen for the program were all determined to see this program succeed. We helped each other, supported and encouraged each other to make sure we did succeed. We were determined that the program would not fail because we could not accomplish the task; they would have to take it away from us.

After graduating from the cadet program, earning my pilot wings and being commissioned as a second lieutenant, I went on to have an illustrious career in the military, serving in the occupation of Japan, Korea, and finally in England, retiring as a lieutenant colonel in 1965.

Upon retiring from the military, I set my sights on becoming a commercial airline pilot. Prior to retiring, I sent applications to all of the major airlines requesting employment as a pilot. The only positive acknowledgement I received came from United Airlines. I went to Denver, Colorado, and completed all the necessary requirements for hiring. I was hired as a Flight Operation Instructor, teaching in the classrooms, simulators, and airplanes. The first airplane that I instructed on was the Boeing 727 aircraft. I was disappointed that I was not hired as a Flight Instructor, teaching captains and first officers to fly the airplane, even though I was an instructor in just about every plane that I flew while in the military. While I was with the Strategic Air Command, I was appointed as a Select Crew and given a spot promotion from major to lieutenant colonel because of my ability. Instead, my airplane duties were to teach the second officers (flight engineers) the operation of the airplane systems. It appeared that the airlines did not hire blacks to instruct the captains or first officers to fly the airplane. When United Airlines ordered the Boeing 747, I was selected as a member of the team that wrote the pilot instruction manual in systems and airplane operation. When UA hired me, they were in the process of transitioning all of their pilots from propeller-driven airplanes to jets. Upon completion of the transition, the training requirements fell to a very low level; only pilots upgrading to another airplane or needing proficiency checks required training. After seven and a half years I was furloughed because of lack of seniority. Rather than wait to be recalled at a later date, I sent out employment applications again. Frontier Airlines in Denver hired me as a pilot.

I was the first black pilot to be hired by Frontier Airlines, there were a few pilots that did not welcome me into their midst. Frontier Airlines also hired the first woman pilot at this time. A few pilots greeted her with the same reactions. However, I had an enjoyable career with FA, flying the DHC-6, CV-580, Boeing 737, and the McDonald MD-80 aircraft, retiring in July 1986 as a Captain.

I must mention the failure of commercial airlines to hire exceedingly highly qualified black pilots following World War II. Hundreds of skilled Tuskegee Airmen returned to civilian life but were unable to find jobs with commercial airlines. I was the only Tuskegee Airman hired by a scheduled airline. This has to be a serious indictment of the scheduled airlines. Today, thankfully, this practice has changed, and the airline industry has made great strides in hiring minorities.

LEWIS DYMOND ELECTED FRONTIER'S PRESIDENT!

LEWIS W. DYMOND is Frontier Airlines' new president. Following the annual stockholders meeting held in Denver on April 10, the Board of Directors elected Mr. Dymond to head the airline as chief executive officer and also named him as a member of the new Board.

Mr. Dymond was formerly with National Airlines where he held the position of Vice President of Operations, Maintenance and Engineering. During his nearly 24 years with National he worked his way up through maintenance, station operations, flight dispatch and piloting. As a pilot he has logged over 3,200 hours flying time on the line for National and is rated on DC-4, DC-6 and DC-7 equipment.

A native of Lansing, Michigan, Mr. Dymond moved to Florida in his teens. He joined National in 1938 when the company had only 55 employees. By attending night law school at the University of Miami he earned his L.L.B. degree cum laude. He is a member of Phi Kappa Phi, honor society, Phi Alpha Delta, legal fraternity, and the Florida and Dade County Bar Associations. Active in Masonry, Mr. Dymond is a Past Master of the Masonic Lodge, 32nd Degree Consistory and Shriner. Who's Who in America has featured him for the past two years.

Swan Named Chairman and Pistell Co-Chairman of Board

Following final negotiations in late March by The Goldfield Consolidated Mines Company of New York, Reno and San Francisco approximately two-thirds of the outstanding stock was acquired for controlling interest in Frontier Airlines. Purchase price for the 625,000 shares held by L. B. Maytag, Jr., former president of the airline, and his associates was \$3,000,000.

Two weeks later on April 10 a stockholders' meeting was held at Frontier's general offices in Denver. At that time a new nine-man Board of Directors was elected and a new president, Mr. Lewis W. Dymond, was named chief executive officer of the company.

Elected chairman of the new Board of Directors was Willis A. Swan. Mr. Swan of San Francisco holds the positions of president of Goldfield and of Getchell Mine, Inc. with active mining operations near Golconda, Nevada. Co-chairman of the new Board is Richard C. Pistell of New York City. He is also chairman of the Board of Directors of a number of other companies which include Goldfield, Getchell Mine, Inc. and Pistell, Inc., an investment banking firm in New York.

Other members of the Board include Frontier's new president, Mr. Dymond, and these additional six businessmen: Frontier's new secretary and general counsel, Barry S. Cohen of New York is also a director, secretary and treasurer of Goldfield and a director of Getchell Mine, Inc. From Asheville, North Carolina, is C. BOOK REVIEW

A new book is out about Allegheny, Bonanza, Central, Frontier, Lake Central, Mohawk, North Central, Ozark, Pacific, Piedmont, Pioneer, Southern, Trans-Texas, and West Coast – all Local Service Airlines - titled **AIRLINES FOR THE REST OF US** by Stan Solomon who writes for **AIRWAYS** magazine. He wrote "A Local For Every Locale," in the October, 2000 issue.

The book tells the complete story of the Local Service Airlines: the reasoning behind the C.A.B.'s 1944 decision to create a new class of airline; the origins of each Local, the struggles to survive those early years; the equipment upgrades, from DC-3s all the way up to DC-9s and 737s; the route expansions; the innovative fare promotions; the growth of subsidiaries like Allegheny Commuter; and the reasons why each Local disappeared. There is even a chapter dedicated to the quality of small-community service today.

There are special features: a chapter of airliner photos and another of anecdotes about each of the Locals, like the story of the Frontier DC-3 that clipped a mountain and kept on flying or the story of Southern's escaped alligator at Chicago. One appendix lists all of the places where you can still see a restored Local Service airliner and another appendix lists all of the Websites dedicated to Local Service Airlines. There's also a complete bibliography and an index.

It's a good read and well worth the price of \$15.95 or less. To purchase, go to Amazon Books at http://www.amazon.com/Airlines-Rest-Us-Americas-Service/dp/0595484433/ref=sr_1_1?ie=UTF8&s=books&qid=1230065852&sr=1-1

DFW CN/FL MAINTENANCE REUNION

Enclosed is a picture of Central mechanics taken at Lakeview marina on Sunday July 13, 2008. We met at 12:00 noon & some of them stayed till 3:00 pm.

Had a good time - seen people I hadn't seen in 40 years. Out of towners were Carl Simpson - STL, Ray Duckett - TUL OKC, Wayne Mercer - HOT, Harold Blood - OKC, Kirby Rankin - OKC, Jay Hayes - Thackerville OK, Delbert White - Decatur TX, Bill Guthrie - Eastland TX, Tom Dewoody - DAL, Ernest Fuqua - Denton TX.

Others attending were Kenneth Fuqua, Larry Brogden, Bill Abraham, Sam Warriner, Russell O'Hara, Harold Walling, John Peery, Herb Madeley and Benney Derr.

Wives attending were Sally Blood, Carole Fuqua, Theda Walling, Judy Mercer, Cookie Hayes, Anne Duckett, Edith Rankin and Dorothy White.

I want to thank Sam Warriner for helping call & picking people up at the airport. I will try & keep you posted on the next one.

If anyone knows the whereabouts of the following, please call 817-236-6013 or 817-913-9313. Would much appreciate it: Billy Beane, Joanie Owen, Don Reeves, Clair Bearer or Albert Bush. -Brady White, ontopavia@aol.com

(Sorry I didn't get this item in the Fall issue. It got misfiled (Can I blame the computer?) The photo would not reproduce well enough to print. Brady had phoned to tell me he was sending photos from the mechanics' gathering he held. There were 20 or so mechanics who showed up. One was 90 and Brady is now 80. He worked as an aircraft mechanic at CN/FL 1955 - 1986)
