

Jim had worked for Frontier Airlines for 29 years before they went bankrupt. Then he underwent 2 back surgeries. This put so much stress in our lives that we were simply at our wits end!

I was a Director for a Cosmetic company hosting shows day and night trying just to make ends meet, but we were still losing ground. Then a lady brought us a bottle of Matol/Km® and changed our lives forever, physically and financially.

As soon as we began taking Matol/Km®, we experienced immediate results. We felt so great, that Jim actually said, “We need to see what this is all about.”

We signed up as Matol Distributors just to get the product at a discount, never really knowing what it would mean to us further down the line.

We started sharing it with friends and family and in one month had sold fifty cases of Matol/Km®! Needless to say, we were very excited. Everyone could see the change in us and wanted some of matol/Km® too. Then they shared just like we did!

Just by taking that first bottle and sharing it, the company has paid us well over one million dollars over the past 14 years. Now, we are on our way to our second million!

We just shared from the heart, like we still do. We have seen thousands of lives change and we are truly here to help Matol help other people anyway we can.

There are so many blessings by belonging to Matol. The freedom of lifestyle is so wonderful and have so many great friends with good health.

The travel is wonderful too. We have been to so many great places, like Hawaii (seven times!), Acapulco, Puerto Vallarta, Montreal and Vancouver as well as all over the United States and on a couple Cruises with the Matol family. It is always great fun! Last year Matol took us to Greece for 10 days in Mediterranean.

We live In Tucson, Arizona and the summers are a little hot, so we spend several weeks during June and July in the Catalina Mountains just about an hour from our house.

We stay in our motor home, enjoy the cool pine trees and run our business with our cell phone. We even sponsored the camp manager! She signed up with an order for Matol/Km® and Biomune OSF™ and she loves them both. This is just goes to show, that you can do this business where ever you are!
