Joe has been active in politics since 1964 and presently serves as chairman for his precinct for the Republican Party. He ran for United States Congress in 1976 in Utah and won the Republican nomination.

Joe offers presentations on the following topics:

"Marxism: The Greatest Fraud of All Times" — Joe identifies Marxist ideology, knowing what flaws infect the ideology, and about how to expose it and fight it.

"The Controlled Media: A Tool of America's Greatest Enemies" — We live in a time of universal deception. Only a few entities and people control the major portion of the media, and they use their power for the purpose of tricking the American people into supporting ideas and policies that are contrary to their own best interests. These ideas and policies do, of course, empower those forces that control the media and also control the federal government.

"Illegal Immigration: — This speech covers a lot of ground, all of it pertaining to the very serious ramifications of illegal immigration— which are never discussed by President Bush, the mainstream media, or the average politician. They are:

1. How most of the illegal immigrants from Latin America have been indoctrinated with Liberation Theology. This is, in actuality, Marxism presented as religion, which could be used to propagate violence.
2. The hypocrisy displayed by the federal government. The federal government spends millions (or billions) yearly to scrutinize passengers arriving legally at international ports, yet they make little effort to stop those who constitute the greatest danger from entering the United States illegally.
3. The annual costs, both in dollars and social consequences, of crimes committed by illegal immigrants and through the illegals' use of the U.S. healthcare system.
4. The Balkanization of America that is happening because the new arrivals refuse to assimilate.
5. The illegal immigrants potential for terrorism and sabotage.

"Will America Survive? The Forces Attacking the Foundations of Americanism" — How to recognize them and how to expose and fight them.
