

Hello Jake,

Hope all is well. My dad (Tom) turns 94 this week. He is doing reasonably well for his age. With assistance, he is in the family home. Short term memory is not good but the long term memory is pretty good. He does remember coworkers from the FAL days. Unfortunately almost all have passed on. He does remember Bill Guthrie or "Guthrie" as dad calls him. He doesn't use a computer so he will need a hard copy of your newsletter. Thanks for the time & effort you do on that. Feel free to email me with any questions about peps.
